A group of 5th graders at Lititz Elementary School was very touched by a presentation on Rwanda. They learned that many children in Rwanda are unable to attend school because they must walk for miles each day in order to carry water for their families. The water does not come from a clean source and many children die each year. The students, called The Water Workers, are raising funds to purchase a rain water-filtration system for a village in Rwanda. Their goal is \$2,000 and they are selling hand-made items. Come out, meet the students and hear more about their worthy cause! For more information, please go to [www.4-More.org](http://www.4-More.org).

The 195th Fourth of July Committee will have a table next to Café Chocolate where visitors can see a video highlighting this year's celebration. Visitors will also have the opportunity to sign up to support the Lititz Springs Park as a Patron. Each Patron will get their name in the official program booklet for the 4th of July as well as a commemorative pin to wear proudly.
